

## REQUIRED PROJECT DOCUMENTATION

The required documentation for a project documentation report in its general outline, photo general views and details of the realization, drawings or any other documentation in digital format for the understanding of the architectural and functional quality of the presented project.

The evaluation criteria adopted by Warli for publication will refer to the design, functional and application aspects of the use of carpets and coverings under its own brand. The elements of valorization and correct use of materials in terms of creativity will be highlighted, in relation to the architectural project, the design, the chromatic study and the finishes, and the personalization of the project.

The materials submitted will be published only with the consent of the client and / or owner to the publication of the work itself and related materials. Please specify any photo credits.

By sending the materials, the authors authorize Warli to use them for promotional purposes. The authors agree that Warli can not be the subject of any claims as a consequence of such uses. In any case, Warli is exempt from any liability to third parties.
